

Turfmaster

FACILITY MANAGEMENT

ENVIRONMENTAL POLICY STATEMENT

Turfmaster is engaged in the provision of complete turf maintenance as stated in the scope of works services that meets legislative and regulatory requirements, contractual, client and other requirements.

Turfmaster supports the concept of a sustainable environment by minimising pollution and the use of natural resources and implementing recycling initiatives and regards the protection of the environment as an essential element of company operations and of good corporate citizenship

To ensure that environmental protection is effectively managed, **Turfmaster** has incorporated an Environmental Management System (EMS) into the existing management system framework to meet the requirements of AS / NZS ISO 14001.

Turfmaster is committed to adopting and maintaining an Environmental Management System (EMS) that contains environmental management, operating and monitoring processes and continually improves environmental performance throughout the company.

Through the implementation of the Environmental Management System (EMS) **Turfmaster** identifies the environmental aspects and impacts of the company's activities and establishes and reviews clear environmental objectives.

Turfmaster Management is committed to providing the resources required to achieve these objectives and to continually improve environmental performance through responsible and informed work practices and decision-making.

All personnel working for or on behalf of Turfmaster are made aware of the policy and are encouraged to be personally involved in the ongoing improvement of the management system by identifying environmental issues in the workplace, and by providing suggestions for their management.
